

Testimonials

“ Lauren and her staff showed professionalism, courtesy and empathy to my mother during what was obviously a difficult time for her. Having her new apartment completely set-up when she first arrived not only provided her with comfort, but it also eased my anxieties regarding the move as well. They made what could have been a very trying experience, one that I now talk about with great pleasure! ”

“ Lauren is efficient, effective, trustworthy and a delight to work with. ”

“ Throughout the 3 moves Leapfrog did for us, Lauren gained our trust, managed our aging Aunt, gained the best auction prices, swiftly disposed of garbage, thoughtfully surfaced reminders and questions we hadn't considered and generally “won us over” so thoroughly that we did not even attend in Winnipeg for the most recent move, but trusted it to Lauren entirely. She did not disappoint...sent us photos of the new setup online upon her completion. ”

“ We show prospective tenants suites within our building that Leapfrog has set-up when we don't have a display suite available. They do a fabulous job! ”

“ As I live in the state of Washington, I needed someone who would provide a professional, reliable and seamless move for my father and also accommodate my travel schedule. Leapfrog Moving Specialists, Inc. did this and more! ... What a delight and enormous relief it was to enter my dad's new suite with everything in its place and then to know that his former home was being cleaned out of many years of accumulated stuff! ”
